Autistic UK has two types of organisational membership, full and associate.

Full organisational membership is open to any organisation which is run by autistic people.

Associate organisational membership is open to any organisation not run by autistic people.

Member organisations must appoint an individual to represent it and (in the case of full members) to vote on its behalf at Autistic UK meetings.

They must also appoint an alternative person to replace the appointed representative if they are unable to attend.

Tick the appropriate box to indicate which membership category is applicable.
